

60cm Electric Pyro Built-in Oven, TFT display Professional Series

F6011PROPTX

This Bertazzoni Professional Series 60cm built-in electric oven with pyrolytic self-cleaning offers a best-in-class cavity capacity of 76 litres. With 11 functions it is ideal for mid-to low- temperature cooking, such as baking or recipes that require slow cooking, like casseroles. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures even heat distribution on all five levels for roasting and baking with no flavour crossover. The infrared grill gives powerful searing and grilling over a large surface area. The oven is easy to control and monitor with metal or metal titanium knobs and a clear TFT display, which offers remarkable flexibility when choosing cooking modes. It also makes managing the food probe and Bertazzoni Assistant simple. The soft open-and-close door with metal or metal titanium handle is easy to use and the cool touch glass is quadruple-glazed for safety and efficiency. Pyrolytic cleaning is based on high-temperature cleaning and sterilising without detergents to leave your oven sparkling clean hygienic. Available in Stainless Steel and Carbonio.

Specifications

Features

Oven cavity

Size	60 cm
Oven fuel	electric
